Author Index

A

Abboud, F. M. *See* Ferguson, Abboud, and Mark.

Abraham, G. N. *See* Rosenfeld, Looney, Leddy, Phipps, Abraham, and Anderson.

Abram, V. *See* Nakagawa, Abram, Parks, Lau, Kawooya, and Coe.

Absher, M. P. *See* Van Riper, Absher, and Lenox.

Acheson, K. J. *See* Flatt, Ravussin, Acheson, and Jéquier.

—, *See* Ravussin, Acheson, Vernet, Danforth, and Jéquier.

Adamson, J. *See* Delwiche, Raines, Powell, Ross, and Adamson.

Adibi, S. A. *See* Vazquez, Morse, and Adibi.

Adkinson, N. F., Jr. *See* Creticos, Adkinson, Kagey-Sobotka, Proud, Meier, Naclerio, Lichtenstein, and Norman.

—, *See* Togias, Naclerio, Proud, Fish, Adkinson, Kagey-Sobotka, Norman, and Lichtenstein.

Aguado, M. T., Lambris, J. D., Tsokos, G. C., Burger, R., Bitter-Suermann, D., Tamerius, J. D., Dixon, F. J., and Theofilopoulos, A. N. Monoclonal antibodies against complement 3 neoantigens for detection of immune complexes and complement activation. Relationship between immune complex levels, state of C3, and numbers of receptors for C3b. 1418

Agus, D., Mann, R., Cohn, D., Michaud, L., Kelly, C., Clayman, M., and Neilson, E. G. Inhibitory role of dietary protein restriction on the development and expression of immune-mediated antitubular basement membrane-induced tubulointerstitial nephritis in rats. 930

Ahrens, E. H., Jr. *See* McNamara, Ahrens, Parker, and Morrissey.

Aisen, P. *See* Cox, O'Donnell, Aisen, and London.

Akanuma, Y. *See* Shibasaki, Kawakami, Kanazawa, Akanuma, and Takaku.

Akhtar, M. *See* Lehmann, Denker, Mahmud, Tchou, Dongas, and Akhtar.

Akmal, M., Telfer, N., Ansari, A. N., and Massry, S. G. Erythrocyte survival in chronic renal failure. Role of secondary hyperparathyroidism. 1695

Aktories, K. *See* Kather, Bieger, Michel, Aktories, and Jakobs.

Alex, S. *See* Castro, Braverman, Alex, Wu, and Emerson.

Alexanian, R. *See* Barlogie, Alexanian, Pershouse, Smallwood, and Smith.

Allegra, C. J. *See* Chabner, Allegra, Curt, Clendeninn, Baram, Koizumi, Drake, and Jolivet.

Allen, J. B., Malone, D. G., Wahl, S. M., Calandra, G. B., and Wilder, R. L. Role of the thymus in streptococcal cell wall-induced arthritis and hepatic granuloma formation. Comparative studies of pathology and cell wall distribution in athymic and euthymic rats. 1042

Allen, J. L., Frantz, I. D., III, and Fredberg, J. J. Regional alveolar pressure during periodic flow. Dual manifestations of gas inertia. 620

Allen, R. H. *See* Yang, Decos, Rosenberg, Catrou, Levine, Podell, and Allen.

Allen, R. *See* Celada, Allen, Esparza, Gray, and Schreiber.

Alling, D. W. *See* Buescher, Alling, and Gallin.

Allison, A. C. *See* Morhenn, Schreiber, Soriero, McMillan, and Allison.

Alpern, R. J., Howlin, K. J., and Preisig, P. A. Active and passive components of chloride transport in the rat proximal convoluted tubule. 1360

Amendt, B. A., and Rhead, W. J. Catalytic defect of medium-chain acyl-coenzyme A dehydrogenase deficiency. Lack of both cofactor responsiveness and biochemical heterogeneity in eight patients. 963

Amento, E. P., Bhan, A. K., McCullagh, K. G., and Krane, S. M. Influences of gamma interferon on synovial fibroblastlike cells. Ia induction and inhibition of collagen synthesis. 837

Amr, S., Rosa, C., Birken, S., Canfield, R., and Nisula, B. Carboxyterminal peptide fragments of the beta subunit are urinary products of the metabolism of desialylated human choriogonadotropin. 350

Anderson, C. L. *See* Rosenfeld, Looney, Leddy, Phipps, Abraham, and Anderson.

Anderson, P., Pichichero, M. E., and Insel, R. A. Immunogens consisting of oligosaccharides from the capsule of *Haemophilus influenzae* type b coupled to diphtheria toxoid or the toxin protein CRM197. 52

Anderson, R. J. *See* Kim, Dillingham, Summer, Ishikawa, Anderson, and Schrier.

Anderson, S., Meyer, T. W., Rennke, H. G., and Brenner, B. M. Control of glomerular hypertension limits glomerular injury in rats with reduced renal mass. 612

Andersson, T. *See* Krause, Schlegel, Wollheim, Andersson, Waldvogel, and Lew.

Angel, A. *See* Fong, Rodrigues, Salter, Yip, Despres, Gregg, and Angel.

Annesley, T. M. *See* Ward, Till, Hatherill, Annesley, and Kunkel.

Ansari, A. N. *See* Akmal, Telfer, Ansari, and Massry.

Antony, A. C. *See* Antony, Sahn, Antony, and Repine.

Antony, V. B., Sahn, S. A., Antony, A. C., and Repine, J. E. Bacillus Calmette–Guérin-stimulated neutrophils release chemotaxins for monocytes in rabbit pleural spaces and in vitro. 1514

Ardaillou, R. *See* Baud, Sraer, Perez, Nivez, and Ardaillou.

Arieff, A. I. *See* Fraser, Sarnacki, and Arieff.

—, *See* Graf, Leach, and Arieff.

Aronson, P. S. *See* Guggino and Aronson.

Arrick, B. A., Griffo, W., Cohn, Z., and Nathan, C. Hydrogen peroxide from cellular metabolism of cystine. A requirement for lysis of murine tumor cells by vernolepin, a glutathione-depleting antineoplastic. 567

Atarashi, K., Mulrow, P. J., and Franco-Saenz, R. Effect of atrial peptides on aldosterone production. 1807

Atkins, P. C. *See* Talbot, Atkins, Goetzl, and Zweiman.

Aune, T. M. *See* Schnaper and Aune.

Aurrechia, S. *See* Griffing, Berelowitz, Hudson, Salzman, Manson, Aurrechia, Melby, Pedersen, and Brownie.

B

Bach, J.-F. *See* Savino, Manganella, Verley, Wolff, Berrih, Levasseur, Binet, Dardenne, and Bach.

Bacon, P. A. *See* Lunec, Blake, McCleary, Brailsford, and Bacon.

Badaró, R. *See* Carvalho, Badaró, Reed, Jones, and Johnson.

Bailey, B. D. *See* Curt, Jolivet, Carney, Bailey, Drake, Clendeninn, and Chabner.

Bainton, D. F. *See* Ganz, Selsted, Szklarek, Harwig, Daher, Bainton, and Lehrer.

—, *See* George, Saucerman, Levine, Knieriem, and Bainton.

Ballermann, B. J., and Brenner, B. M. Biologically active atrial peptides. 2041

—, Hoover, R. L., Karnovsky, M. J., and Brenner, B. M. Physiologic regulation of atrial natriuretic peptide receptors in rat renal glomeruli. 2049

Baralle, F. E. *See* Rees, Stocks, Sharpe, Vella, Shoulders, Katz, Jowett, Baralle, and Galton.

Baram, J. *See* Chabner, Allegra, Curt, Clendeninn, Baram, Koizumi, Drake, and Jolivet.

Barlogie, B., Alexanian, R., Pershouse, M., Smallwood, L., and Smith, L. Cytoplasmic immunoglobulin content in multiple myeloma. 765

—, *See* Kantarjian, Barlogie, Keating, Hall, Smith, McCredie, and Freireich.

Bar-Ner, M. *See* Matzner, Bar-Ner, Yahalom, Ishai-Michaeli, Fuks, and Vlodavsky.

Baron, A. D., Kolterman, O. G., Bell, J., Mandarino, L. J., and Olefsky, J. M. Rates of noninsulin-mediated glucose uptake are elevated in type II diabetic subjects. 1782

Bar-Shavit, Z. *See* Welgus, Campbell, Bar-Shavit, Senior, and Teitelbaum.

Bashore, T. M. *See* Sullivan, Binkley, Unverferth, Ren, Boudoulas, Bashore, Merola, and Leier.

Batta, A. K. *See* Salen, Shefer, Tint, Nicolau, Dayal, and Batta.

Baud, L., Sraer, J., Perez, J., Nivez, M.-P., and Ardaillou, R. Leukotriene C4 binds to human glomerular epithelial cells and promotes their proliferation in vitro. 374

Bauer, C. *See* Kurtz, Härtl, Jelkmann, Zapf, and Bauer.

Bauer, K. A., Goodman, T. L., Kass, B. L., and Rosenberg, R. D. Elevated Factor Xa activity in the blood of asymptomatic patients with congenital antithrombin deficiency. 826

—, *See* Weinstein, Chute, Schmitt, Hamburger, Bauer, Troll, Janson, and Deykin.

The Journal of Clinical Investigation
July 1985, Volume 76, Number 1

Perspectives

Vitamin D-endocrine system. *N. H. Bell* 1

Regular Articles

Prostacyclin production by the deendothelialized rabbit aorta. *J. M. Boeynaems, N. Galand, and P. Ketelbant* . . 7

Measurement of regional neuronal removal of norepinephrine in man. *D. S. Goldstein, R. Zimlichman, R. Stull, J. Folio, P. D. Levinson, H. R. Keiser, and I. J. Kopin* 15

Insulin receptor down-regulation is linked to an insulin-induced postreceptor defect in the glucose transport system in rat adipocytes. *W. T. Garvey, J. M. Olefsky, and S. Marshall* 22

Role of the kidneys in the metabolism of plasma mevalonate. Studies in humans and in rhesus monkeys. *D. J. McNamara, E. H. Ahrens, Jr., T. S. Parker, and K. Morrissey* 31

Antigenic characterization of human hepatocellular carcinoma. Development of in vitro and in vivo immunoassays that use monoclonal antibodies. *R. I. Carlson, E. Ben-Porath, D. Shouval, W. Strauss, K. J. Isselbacher, and J. R. Wands* 40

Immunogens consisting of oligosaccharides from the capsule of *Haemophilus influenzae* type b coupled to diphtheria toxoid or the toxin protein CRM197. *P. Anderson, M. E. Pichichero, and R. A. Insel* 52

Differentiation and activation phenotypes of lung T lymphocytes differ from those of circulating T lymphocytes. *B. L. Davidson, J. Faust, S. Pessano, R. P. Daniele, and G. Rovera* 60

Hamster female protein, a sex-limited pentraxin, is a constituent of Syrian hamster amyloid. *J. E. Coe and M. J. Ross* 66

Molecular analysis of the bare lymphocyte syndrome. *K. E. Sullivan, J. D. Stobo, and B. M. Peterlin* 75

Resistance of human tumor cells in vitro to oxidative cytolysis. *J. O'Donnell-Tormey, C. J. DeBoer, and C. F. Nathan* 80

Influence of a 60-hour fast on insulin-mediated splanchnic and peripheral glucose metabolism in humans. *O. Björkman and L. S. Eriksson* 87

Binding of diamine oxidase activity to rat and guinea pig microvascular endothelial cells. Comparisons with lipoprotein lipase binding. *A. Robinson-White, S. B. Baylin, T. Olivecrona, and M. A. Beaven* 93

A new murine monoclonal antibody reports an activation-dependent change in the conformation and/or microenvironment of the platelet glycoprotein IIb/IIIa complex. *B. S. Coller* 101

Increased insulin sensitivity and responsiveness of glucose metabolism in adipocytes from female versus male rats. *M. Guerre-Millo, A. Leturque, J. Girard, and M. Lavau* . . . 109

Human Factor VIII procoagulant protein. Monoclonal antibodies define precursor-product relationships and functional epitopes. *C. A. Fulcher, J. R. Roberts, L. Z. Holland, and T. S. Zimmerman* 117

Expression of class II transplantation antigen on vascular smooth muscle cells in human atherosclerosis. *L. Jonasson, J. Holm, O. Skalli, G. Gabbiani, and G. K. Hansson* 125

Control of sodium and potassium transport in the cortical collecting duct of the rat. Effects of bradykinin, vasopressin, and deoxycorticosterone. *K. Tomita, J. J. Pisano, and M. A. Knepper* 132

Platelet-derived growth factor enhances in vitro erythropoiesis via stimulation of mesenchymal cells. *F. Delwiche, E. Raines, J. Powell, R. Ross, and J. Adamson* 137

Human fibronectin metabolism. *B. A. Pussell, P. W. Peake, M. A. Brown, and J. A. Charlesworth* 143

Effects of insulin on peripheral and splanchnic glucose metabolism in noninsulin-dependent (type II) diabetes mellitus. *R. A. DeFronzo, R. Gunnarsson, O. Björkman, M. Olsson, and J. Wahren* 149

Evidence for the presence of xenopsin-related peptide(s) in the gastric mucosa of mammals. *G. E. Feurle, R. E. Carraway, E. Rix, and W. Knauf* 156

Plasma immunoreactive gamma melanotropin in patients with idiopathic hyperaldosteronism, aldosterone-producing adenomas, and essential hypertension. *G. T. Griffing, B. Berelowitz, M. Hudson, R. Salzman, J. A. E. Manson, S. Aurrechia, J. C. Melby, R. C. Pedersen, and A. C. Brownie* 163

Modulation of renal sodium-potassium-adenosine triphosphatase by aldosterone. Effect of high physiologic levels on enzyme activity in isolated rat and rabbit tubules. *S. K. Mujais, M. A. Chekal, W. J. Jones, J. P. Hayslett, and A. I. Katz* 170

Androgen receptors influence the production of pulmonary surfactant in the testicular feminization mouse fetus. *H. C. Nielsen* 177

Autoantibody to the C3b/C4b receptor and absence of this receptor from erythrocytes of a patient with systemic lupus erythematosus. *J. G. Wilson, R. M. Jack, W. W. Wong, P. H. Schur, and D. T. Fearon* 182

Influx of kininogens into nasal secretions after antigen challenge of allergic individuals. *C. R. Baumgarten, A. G. Togias, R. M. Naclerio, L. M. Lichtenstein, P. S. Norman, and D. Proud* 191

Cationization of catalase, peroxidase, and superoxide dismutase. Effect of improved intraarticular retention on experimental arthritis in mice. *J. Schalkwijk, W. B. van den Berg, L. B. A. van de Putte, L. A. B. Joosten, and L. van den Bersselaar* 198

Oxygen-independent intracellular and oxygen-dependent extracellular killing of *Escherichia coli* S15 by human polymorphonuclear leukocytes. *J. Weiss, L. Kao, M. Victor, and P. Elsbach* 206

Cobalamin inactivation decreases purine and methionine synthesis in cultured lymphoblasts. *G. R. Boss* 213

Human alveolar macrophages produce a fibroblast-like collagenase and collagenase inhibitor. *H. G. Welgus, E. J. Campbell, Z. Bar-Shavit, R. M. Senior, and S. L. Teitelbaum* 219

Immune complex hyperlipidemia induced by an apolipoprotein-reactive immunoglobulin A paraprotein from a patient with multiple myeloma. Characterization of this immunoglobulin. *L. L. Kilgore, B. W. Patterson, D. M. Parenti, and W. R. Fisher* 225

Inhibition and subsequent enhancement of platelet responsiveness by prostacyclin in the rabbit. Relationship to platelet adenosine 3',5'-cyclic monophosphate. *M. Vanderwel and R. J. Haslam* 233

Rat lung fibroblast collagen metabolism in bleomycin-induced pulmonary fibrosis. *S. H. Phan, J. Varani, and D. Smith* 241

Discordance between surface and cytoplasmic expression of the Leu-4 (T3) antigen in thymocytes and in blast cells from childhood T lymphoblastic malignancies. *M. P. Link, S. J. Stewart, R. A. Warnke, and R. Levy* 248

Human dermal fibroblasts present tetanus toxoid antigen to antigen-specific T cell clones. *D. T. Umetsu, J. S. Pober, H. H. Jabara, W. Fiers, E. J. Yunis, S. J. Burakoff, C. S. Reiss, and R. S. Geha* 254

Effects of plasmin on von Willebrand factor multimers. Degradation in vitro and stimulation of release in vivo. *K. K. Hamilton, L. J. Fretto, D. S. Grierson, and P. A. McKee* 261

Cultured endothelial cells synthesize both platelet-activating factor and prostacyclin in response to histamine, bradykinin, and adenosine triphosphate. *T. M. McIntyre, G. A. Zimmerman, K. Satoh, and S. M. Prescott* 271

In vivo externalization of phosphatidylserine and phosphatidylethanolamine in the membrane bilayer and hypercoagulability by the lipid peroxidation of erythrocytes in rats. *S. K. Jain* 281

Detection of cross-reactive anti-DNA antibody idiotypes on renal tissue-bound immunoglobulins from lupus patients. *D. A. Isenberg and C. Collins* 287

Effect of hydrogen peroxide on prostaglandin production and cellular integrity in cultured porcine aortic endothelial cells. *A. R. Whorton, M. E. Montgomery, and R. S. Kent* 295

An adenosine triphosphate-dependent calcium uptake pump in human neutrophil lysosomes. *M. S. Klempner* 303

Isolation and characterization of a colonic autoantigen specifically recognized by colon tissue-bound immunoglobulin G from idiopathic ulcerative colitis. *F. Takahashi and K. M. Das* 311

Pretreatment cytokinetics in acute myelogenous leukemia. Age-related prognostic implications. *H. M. Kantarjian, B. Barlogie, M. J. Keating, R. R. Hall, T. L. Smith, K. B. McCredie, and E. J. Freireich* 319

Increased amounts of a novel penicillin-binding protein in a strain of methicillin-resistant *Staphylococcus aureus* exposed to nafcillin. *H. F. Chambers, B. J. Hartman, and A. Tomasz* 325

Studies of the pathogenesis of angioimmunoblastic lymphadenopathy. *M. Honda, H. R. Smith, and A. D. Steinberg* 332

Identification of the lymphokine soluble immune response suppressor in urine of nephrotic children. *H. W. Schnaper and T. M. Aune* 341

Carboxyterminal peptide fragments of the beta subunit are urinary products of the metabolism of desialylated human choriogonadotropin. *S. Amr, C. Rosa, S. Birken, R. Canfield, and B. Nisula* 350

Effect of insulin on the distribution and disposition of glucose in man. *E. Ferrannini, J. D. Smith, C. Cobelli, G. Toffolo, A. Pilo, and R. A. DeFronzo* 357

Rapid Publications

In vivo differentiation of blast-phase chronic granulocytic leukemia. Expression of *c-myc* and *c-abl* protooncogenes. *C. A. Koller, V. W. Campbell, D. A. Polansky, A. Mulhern, and D. M. Miller* 365

Evidence for alteration of the vitamin D-endocrine system in obese subjects. *N. H. Bell, S. Epstein, A. Greene, J. Shary, M. J. Oexmann, and S. Shaw* 370

Leukotriene C4 binds to human glomerular epithelial cells and promotes their proliferation in vitro. *L. Baud, J. Sraer, J. Perez, M.-P. Nivez, and R. Ardaillou* 374

Posttranslational cleavage of proinsulin is blocked by a point mutation in familial hyperproinsulinemia. *Y. Shibasaki, T. Kawakami, Y. Kanazawa, Y. Akanuma, and F. Takaku* 378

A defect in the regulation of major histocompatibility complex class II gene expression in human HLA-DR negative lymphocytes from patients with combined immunodeficiency syndrome. *B. Lisowska-Grospierre, D. J. Charron, C. de Préval, A. Durandy, C. Griscelli, and B. Mach* 381

Perspectives

Tumor products and the hypercalcemia of malignancy. *G. R. Mundy, K. J. Ibbotson, and S. M. D'Souza* 391

Regular Articles

Secretion of an articular cartilage proteoglycan-degrading enzyme activity by murine T lymphocytes in vitro. *G. M. Kammer, A. I. Sapolsky, and C. J. Malemud* 395

Apolipoprotein B-100 deficiency. Intestinal steatosis despite apolipoprotein B-48 synthesis. *P. N. Herbert, J. S. Hyams, D. N. Bernier, M. M. Berman, A. L. Saritelli, K. M. Lynch, A. V. Nichols, and T. M. Forte* 403

Activation of Factor XII-dependent pathways in human plasma by hematin and protoporphyrin. *C. G. Becker, M. Wagner, A. P. Kaplan, M. Silverberg, R. W. Grady, H. Liem, and U. Muller-Eberhard* 413

Pathophysiology of spontaneous hypercalciuria in laboratory rats. Role of deranged vitamin D metabolism. *K. Lau, D. Thomas, C. Langman, and B. Eby* 420

Evidence for a mouse mesangial cell-derived factor that stimulates lymphocyte proliferation. *E. P. MacCarthy, A. Hsu, Y. M. Ooi, and B. S. Ooi* 426

Phorbol diesters stimulate the development of an early murine progenitor cell. The burst-forming unit–megakaryocyte. *M. W. Long, L. L. Gragowski, C. H. Heffner, and L. A. Boxer* 431

Identification of gallbladder mucin-bilirubin complex in human cholesterol gallstone matrix. Effects of reducing agents on in vitro dissolution of matrix and intact gallstones. *B. F. Smith and J. T. LaMont* 439

Interleukin-2 receptor (Tac antigen) expressed on adult T cell leukemia cells. *T. Uchiyama, T. Hori, M. Tsudo, Y. Wano, H. Umadome, S. Tamori, J. Yodoi, M. Maeda, H. Sawami, and H. Uchino* 446

Immunological studies of an organic anion-binding protein isolated from rat liver cell plasma membrane. *A. W. Wolkoff, A. Sosiak, H. C. Greenblatt, J. Van Renswoude, and R. J. Stockert* 454

Regulation of glucose utilization in adipose cells and muscle after long-term experimental hyperinsulinemia in rats. *L. J. Wardzala, M. Hirshman, E. Pofcher, E. D. Horton, P. M. Mead, S. W. Cushman, and E. S. Horton* 460

Evidence for alteration of the vitamin D-endocrine system in blacks. *N. H. Bell, A. Greene, S. Epstein, M. J. Oexmann, S. Shaw, and J. Shary* 470

Evidence for beta adrenoceptors in proximal tubules. Isoproterenol-sensitive adenylate cyclase in pars recta of canine nephron. *N. Murayama, B. T. Ruggles, S. M. Gapstur, J. L. Werness, and T. P. Dousa* 474

Characterization of a new model of G_{M2}-gangliosidosis (Sandhoff's disease) in Korat cats. *E. A. Neuwelt, W. G. Johnson, N. K. Blank, M. A. Pagel, C. Maslen-McClure, M. J. McClure, and P. M. Wu* 482

Interaction of human leukocytes and *Entamoeba histolytica*. Killing of virulent amebae by the activated macrophage. *R. A. Salata, R. D. Pearson, and J. I. Ravdin* 491

Immunoglobulin G–induced single ionic channels in human alveolar macrophage membranes. *D. J. Nelson, E. R. Jacobs, J. M. Tang, J. M. Zeller, and R. C. Bone* 500

Virulence of *Cryptococcus neoformans*. Regulation of capsule synthesis by carbon dioxide. *D. L. Granger, J. R. Perfect, and D. T. Durack* 508

Systemic complement activation, lung injury, and products of lipid peroxidation. *P. A. Ward, G. O. Till, J. R. Hatherill, T. M. Annesley, and R. G. Kunkel* 517

Identification of intracellular Factor XIII in human monocytes and macrophages. *P. Henriksson, S. Becker, G. Lynch, and J. McDonagh* 528

Antiadhesive properties of biological surfaces are protective against stimulated granulocytes. *J. Fehr, R. Moser, D. Leppert, and P. Groscurth* 535

Paradoxical effects of pyrazinoate and nicotinate on urate transport in dog renal microvillus membranes. *S. E. Guggino and P. S. Aronson* 543

Regulatory roles of $T\mu$ and $T\gamma$ cells in the collaborative cellular initiation of the extrinsic coagulation pathway by bacterial lipopolysaccharide. *G. A. Levy, B. S. Schwartz, L. K. Curtiss, and T. S. Edgington* 548

Excess purine degradation in exercising muscles of patients with glycogen storage disease types V and VII. *I. Mineo, N. Kono, T. Shimizu, N. Hara, Y. Yamada, S. Sumi, K. Nonaka, and S. Tarui* 556

In vivo and in vitro studies of urinary concentrating ability in potassium-depleted rabbits. *K. H. Raymond, K. K. Davidson, and T. D. McKinney* 561

Hydrogen peroxide from cellular metabolism of cystine. A requirement for lysis of murine tumor cells by vernolepin, a glutathione-depleting antineoplastic. *B. A. Arrick, W. Griffo, Z. Cohn, and C. Nathan* 567

Development of an integrated model for analysis of the kinetics of apolipoprotein B in plasma very low density lipoproteins, intermediate density lipoproteins, and low density lipoproteins. *W. F. Beltz, Y. A. Kesäniemi, B. V. Howard, and S. M. Grundy* 575

Comparisons of metabolism of apolipoprotein B in normal subjects, obese patients, and patients with coronary heart disease. *Y. A. Kesäniemi, W. F. Beltz, and S. M. Grundy* 586

Influence of obesity on the metabolism of apolipoprotein B in humans. *G. Egusa, W. F. Beltz, S. M. Grundy, and B. V. Howard* 596

Diminished type I collagen synthesis and reduced alpha 1(I) collagen messenger RNA in cultured fibroblasts from patients with dominantly inherited (type I) osteogenesis imperfecta. *D. W. Rowe, J. R. Shapiro, M. Poirier, and S. Schlesinger* 604

Control of glomerular hypertension limits glomerular injury in rats with reduced renal mass. *S. Anderson, T. W. Meyer, H. G. Rennke, and B. M. Brenner* 612

Regional alveolar pressure during periodic flow. Dual manifestations of gas inertia. *J. L. Allen, I. D. Frantz III, and J. J. Fredberg* 620

Modulation of phosphate absorption by calcium in the rabbit proximal convoluted tubule. *D. Rouse and W. N. Suki* 630

Multiple disturbances of free fatty acid metabolism in noninsulin-dependent diabetes. Effect of oral hypoglycemic therapy. *M.-R. Taskinen, C. Bogardus, A. Kennedy, and B. V. Howard* 637

Induction of the insulin proreceptor by hydrocortisone in cultured lymphocytes (IM-9 line). *D. G. Rouiller, A. McElduff, J. A. Hedo, and P. Gorden* 645

Accumulation of leukotriene C4 and histamine in human allergic skin reactions. *S. F. Talbot, P. C. Atkins, E. J. Goetzl, and B. Zweiman* 650

Effects of exercise training on in vivo insulin action in individual tissues of the rat. *D. E. James, E. W. Kraegen, and D. J. Chisholm* 657

Pathophysiology of chronic tubulo-interstitial disease in rats. Interactions of dietary acid load, ammonia, and complement component C3. *K. A. Nath, M. K. Hostetter, and T. H. Hostetter* 667

Biliary secretion of fluid-phase markers by the isolated perfused rat liver. Role of transcellular vesicular transport. *J. R. Lake, V. Licko, R. W. Van Dyke, and B. F. Scharschmidt* 676

Distinct clonotypes of anti-DNA antibodies in mice with lupus nephritis. *H. Yoshida, M. Yoshida, S. Izui, and P. H. Lambert* 685

Long-term control of plasma calcitriol concentration in dogs and humans. Dominant role of plasma calcium concentration in experimental hyperparathyroidism. *H. N. Hulter, B. P. Halloran, R. D. Toto, and J. C. Peterson* 695

N-Acetylcysteine potentiates inhibition of platelet aggregation by nitroglycerin. *J. Loscalzo* 703

Clonal analysis of T lymphocytes in the acquired immunodeficiency syndrome. Evidence for an abnormality affecting individual helper and suppressor T cells. *J. B. Margolick, D. J. Volkman, H. C. Lane, and A. S. Fauci* 709

Localization of collagenase in the growth plate of rachitic rats. *D. D. Dean, O. E. Muniz, I. Berman, J. C. Pita, M. R. Carreno, J. F. Woessner, Jr., and D. S. Howell* 716

Anti-Fab antibodies in humans. Predominance of minor immunoglobulin G subclasses in rheumatoid arthritis. *J. E. Persselin and R. H. Stevens* 723

Familial systemic lupus erythematosus. Presence of a cross-reactive idiotype in healthy family members. *R. Halpern, A. Davidson, A. Lazo, G. Solomon, R. Lahita, and B. Diamond* 731

Effect of dietary fat, carbohydrate, and protein on branched-chain amino acid catabolism during caloric restriction. *J. A. Vazquez, E. L. Morse, and S. A. Adibi* 737

Biosynthesis of bile acids in cerebrotendinous xanthomatosis. Relationship of bile acid pool sizes and synthesis rates to hydroxylations at C-12, C-25, and C-26. *G. Salen, S. Shefer, G. S. Tint, G. Nicolau, B. Dayal, and A. K. Batta* 744

Markedly increased circulating pyridoxal-5-phosphate levels in hypophosphatasia. Alkaline phosphatase acts in vitamin B_6 metabolism. *M. P. Whyte, J. D. Mahuren, L. A. Vrabel, and S. P. Coburn* 752

Substrate cycling between gluconeogenesis and glycolysis in euthyroid, hypothyroid, and hyperthyroid man. *G. I. Shulman, P. W. Ladenson, M. H. Wolfe, E. C. Ridgway, and R. R. Wolfe* 757

Cytoplasmic immunoglobulin content in multiple myeloma. *B. Barlogie, R. Alexanian, M. Pershouse, L. Smallwood, and L. Smith* 765

Effect of arginine vasopressin on renal medullary blood flow. A videomicroscopic study in the rat. *B. Zimmerhackl, C. R. Robertson, and R. L. Jamison* 770

Importance of amino acids on vasopressin-stimulated water flow. *C. P. Carvounis, G. Carvounis, and B. J. Wilk* . . . 779

Identification of immunostimulatory dendritic cells in the synovial effusions of patients with rheumatoid arthritis. *N. J. Zvaifler, R. M. Steinman, G. Kaplan, L. L. Lau, and M. Rivelis* 789

Immunologic and structural studies of the lupus/Sjögren's syndrome autoantigen, La/SSB, with a monoclonal antibody. *J. B. Harley, M. O. Rosario, H. Yamagata, O. F. Fox, and E. Koren* 801

Enhancement of the impaired autologous mixed leukocyte reaction in patients with systemic lupus erythematosus. *M. K. Crow* 807

Effect of Reye's syndrome serum on isolated chinchilla liver mitochondria. *J. H. Tonsgard and G. S. Getz* 816

Elevated Factor Xa activity in the blood of asymptomatic patients with congenital antithrombin deficiency. *K. A. Bauer, T. L. Goodman, B. L. Kass, and R. D. Rosenberg* 826

Influences of gamma interferon on synovial fibroblastlike cells. Ia induction and inhibition of collagen synthesis. *E. P. Amento, A. K. Bhan, K. G. McCullagh, and S. M. Krane* 837

Serial studies of autologous antibody reactivity to melanoma. Relationship to clinical course and circulating immune complexes. *D. R. Vlock and J. M. Kirkwood* 849

Contribution of individual superficial nephron segments to ammonium handling in chronic metabolic acidosis in the rat. Evidence for ammonia disequilibrium in the renal cortex. *E. Simon, D. Martin, and J. Buerkert* 855

Acute intermittent porphyria: characterization of a novel mutation in the structural gene for porphobilinogen deaminase. Demonstration of noncatalytic enzyme intermediates stabilized by bound substrate. *R. J. Desnick, L. T. Ostasiewicz, P. A. Tishler, and P. Mustajoki* 865

Rapid Publications

Thermal inactivation of the acquired immunodeficiency syndrome virus, human T lymphotropic virus-III/lymphadenopathy-associated virus, with special reference to antihemophilic factor. *J. S. McDougal, L. S. Martin, S. P. Cort, M. Mozen, C. M. Heldebrant, and B. L. Evatt* 875

L6 cells as a tissue culture model for thyroid hormone effects on skeletal muscle metabolism. *R. J. Koenig and R. J. Smith* 878

Muscarinic receptors on intact human fibroblasts. Absence of receptor activity in adult skin cells. *D. A. Van Riper, M. P. Absher, and R. H. Lenox* 882

Treatment with aldose reductase inhibitor or with *myo*-inositol arrests deterioration of the electroretinogram of diabetic rats. *L. C. MacGregor and F. M. Matschinsky* 887

Metabolic effect of 3,3',5'-triiodothyronine in cultured growth hormone-producing rat pituitary tumor cells. Evidence for a unique mechanism of thyroid hormone action. *D. L. St. Germain* 890

Identification of a point mutation in the adenosine deaminase gene responsible for immunodeficiency. *D. T. Bonthron, A. F. Markham, D. Ginsburg, and S. H. Orkin* 894

Thromboxane synthase is preferentially conserved in activated mouse peritoneal macrophages. *C. S. Tripp, K. M. Leahy, and P. Needleman* 898

Human peripheral blood monocytes display surface antigens recognized by monoclonal antinuclear antibodies. *V. M. Holers and B. L. Kotzin* 991

Effect of prostacyclin on vascular capacity in the dog. *T. G. Fulghum, J. P. DiMarco, E. W. Supple, I. Nash, J. Gendlerman, D. F. Eton, J. B. Newell, R. M. Zusman, and W. J. Powell, Jr.* 999

Intraairway thermal profiles during exercise and hyperventilation in normal man. *E. R. McFadden, Jr., and B. M. Pichurko* 1007

Functional significance of renal prostacyclin and thromboxane A_2 production in patients with systemic lupus erythematosus. *C. Patrono, G. Ciabattoni, G. Remuzzi, E. Gotti, S. Bombardieri, O. Di Munno, G. Tartarelli, G. A. Cinotti, B. M. Simonetti, and A. Pierucci* 1011

Effects of dietary fat on postprandial substrate oxidation and on carbohydrate and fat balances. *J. P. Flatt, E. Ravussin, K. J. Acheson, and E. Jéquier* 1019

Role of renal metabolism and excretion in 5-nitrofuran–induced uroepithelial cancer in the rat. *L. A. Spry, T. V. Zenser, S. M. Cohen, and B. B. Davis* 1025

Inhibitory effect of a human T cell hybrid factor on both cell growth and mixed lymphocyte reactivity. Correlation with class II molecule expression. *M. Trucco, S. Shaw, and R. Korngold* 1032

Role of the thymus in streptococcal cell wall-induced arthritis and hepatic granuloma formation. Comparative studies of pathology and cell wall distribution in athymic and euthymic rats. *J. B. Allen, D. G. Malone, S. M. Wahl, G. B. Calandra, and R. L. Wilder* 1042

Compensatory increase in α1-globin gene expression in individuals heterozygous for the α-thalassemia-2 deletion. *S. A. Liebhaber, F. E. Cash, and D. M. Main* 1057

Renal adaptation to potassium in the adrenalectomized rabbit. Role of distal tubular sodium-potassium adenosine triphosphatase. *L. C. Garg and N. Narang* 1065

Inhibition of vasopressin-stimulated water flow in toad bladder by phorbol myristate acetate, dioctanoylglycerol, and RHC-80267. Evidence for modulation of action of vasopressin by protein kinase C. *D. Schlondorff and S. D. Levine* 1071

Intracellular pH modulates the generation of superoxide radicals by human neutrophils. *L. Simchowitz* 1079

Deoxyribonucleic acid polymorphism in the apolipoprotein A-I–C-III gene cluster. Association with hypertriglyceridemia. *A. Rees, J. Stocks, C. R. Sharpe, M. A. Vella, C. C. Shoulders, J. Katz, N. I. Jowett, F. E. Baralle, and D. J. Galton* 1090

Terbutaline-induced desensitization of human lymphocyte β_2-adrenoceptors. Accelerated restoration of β-adrenoceptor responsiveness by prednisone and ketotifen. *O.-E. Brodde, M. Brinkmann, R. Schemuth, N. O'Hara, and A. Daul* 1096

Biosynthesis of von Willebrand protein by human megakaryocytes. *L. A. Sporn, S. I. Chavin, V. J. Marder, and D. D. Wagner* 1102

Thermic effect of food at rest, during exercise, and after exercise in lean and obese men of similar body weight. *K. R. Segal, B. Gutin, A. M. Nyman, and F. X. Pi-Sunyer* 1107

Receptor-independent low density lipoprotein transport in the rat in vivo. Quantitation, characterization, and metabolic consequences. *D. K. Spady, S. D. Turley, and J. M. Dietschy* 1113

Bicarbonate secretion and chloride absorption by rabbit cortical collecting ducts. Role of chloride/bicarbonate exchange. *R. A. Star, M. B. Burg, and M. A. Knepper* . . . 1123

Glutathione cycle activity and pyridine nucleotide levels in oxidant-induced injury of cells. *I. U. Schraufstätter, D. B. Hinshaw, P. A. Hyslop, R. G. Spragg, and C. G. Cochrane* 1131

Thymoma epithelial cells secrete thymic hormone but do not express class II antigens of the major histocompatibility complex. *W. Savino, G. Manganella, J.-M. Verley, A. Wolff, S. Berrih, P. Levasseur, J.-P. Binet, M. Dardenne, and J.-F. Bach* 1140

Blood pressure development of the spontaneously hypertensive rat after concurrent manipulations of dietary Ca^{2+} and Na^{+}. Relation to intestinal Ca^{2+} fluxes. *D. A. McCarron, P. A. Lucas, R. J. Shneidman, B. LaCour, and T. Drüeke* 1147

Oxidants increase paracellular permeability in a cultured epithelial cell line. *M. J. Welsh, D. M. Shasby, and R. M. Husted* 1155

Hemoglobin Rahere, a human hemoglobin variant with amino acid substitution at the 2,3-diphosphoglycerate binding site. Functional consequences of the alteration and effects of bezafibrate on the oxygen bindings. *J. Sugihara, T. Imamura, S. Nagafuchi, J. Bonaventura, C. Bonaventura, and R. Cashon* 1169

Effects of atropine and gastric inhibitory polypeptide on hepatic glucose uptake and insulin extraction in conscious dogs. *Z. Chap, T. Ishida, J. Chou, R. Lewis, C. Hartley, M. Entman, and J. B. Field* 1174

Experimental pulmonary inflammatory injury in the monkey. *S. D. Revak, C. L. Rice, I. U. Schraufstätter, W. A. Halsey, Jr., B. P. Bohl, R. M. Clancy, and C. G. Cochrane* 1182

Oxygen deprivation-induced injury to isolated rabbit kidney tubules. *J. M. Weinberg* 1193

Hepatic and renal metabolism before and after portasystemic shunts in patients with cirrhosis. *O. E. Owen, M. A. Mozzoli, F. A. Reichle, T. H. Kreulen, R. S. Owen, G. Boden, and M. Polansky* 1209

Leukotriene B_4 ω-hydroxylase in human polymorphonuclear leukocytes. Partial purification and identification as a cytochrome P-450. *S. Shak and I. M. Goldstein* 1218

Mechanism of liver glycogen repletion in vivo by nuclear magnetic resonance spectroscopy. *G. I. Shulman, D. L. Rothman, D. Smith, C. M. Johnson, J. B. Blair, R. G. Shulman, and R. A. DeFronzo* 1229

Interactions of insulin, insulinlike growth Factor II, and platelet-derived growth factor in erythropoietic culture. *N. Dainiak and S. Kreczko* 1237

Identification of malignant plasma cell precursors in the bone marrow of multiple myeloma. *F. Caligaris-Cappio, L. Bergui, L. Tesio, G. Pizzolo, F. Malavasi, M. Chilosi, D. Campana, B. van Camp, and G. Janossy* 1243

Studies on the in vivo and in vitro distribution of apolipoprotein A-IV in human plasma and lymph. *T. Ohta, N. H. Fidge, and P. J. Nestel* 1252

Characterization of immunotoxins active against ovarian cancer cell lines. *R. Pirker, D. J. P. FitzGerald, T. C. Hamilton, R. F. Ozols, W. Laird, A. E. Frankel, M. C. Willingham, and I. Pastan* 1261

Evidence that insulin resistance is responsible for the decreased thermic effect of glucose in human obesity. *E. Ravussin, K. J. Acheson, O. Vernet, E. Danforth, and E. Jéquier* 1268

Rapid Publications

Acquired Bernard–Soulier syndrome. Evidence for the role of a 210,000-molecular weight protein in the interaction of platelets with von Willebrand factor. *R. B. Stricker, D. Wong, S. R. Saks, L. Corash, and M. A. Shuman* 1274

A human T cell clone that mediates the monocyte procoagulant response to specific sensitizing antigen. *B. S. Schwartz, P. J. Reitnauer, J. A. Hank, and P. M. Sondel* 1279

Detection of a frequent restriction fragment length polymorphism in the human T cell antigen receptor beta chain locus. A potential diagnostic tool. *N. Berliner, A. D. Duby, C. C. Morton, P. Leder, and J. G. Seidman* 1283

Purification of fetal hematopoietic progenitors and demonstration of recombinant multipotential colony-stimulating activity. *S. G. Emerson, C. A. Sieff, E. A. Wang, G. G. Wong, S. C. Clark, and D. G. Nathan* 1286

Contents

The Journal of Clinical Investigation
October 1985, Volume 76, Number 4

Presidential Address 1293

Regular Articles

Postnatal development of alveoli. Regulation and evidence for a critical period in rats. *D. Massaro, N. Teich, S. Maxwell, G. D. Massaro, and P. Whitney* 1297

Degradation of heparan sulfate in the subendothelial extracellular matrix by a readily released heparanase from human neutrophils. Possible role in invasion through basement membranes. *Y. Matzner, M. Bar-Ner, J. Yahalom, R. Ishai-Michaeli, Z. Fuks, and I. Vlodavsky* 1306

Low expression of human histocompatibility leukocyte antigen-DR is associated with hypermethylation of human histocompatibility leukocyte antigen-DRα gene regions in B cells from patients with systemic lupus erythematosus. *H. Sano, L. J. Compton, N. Shiomi, A. D. Steinberg, R. A. Jackson, and T. Sasaki* 1314

Determinants of the sensitivity of human small-cell lung cancer cell lines to methotrexate. *G. A. Curt, J. Jolivet, D. N. Carney, B. D. Bailey, J. C. Drake, N. J. Clendeninn, and B. A. Chabner* 1323

Novel platelet-agglutinating protein from a thrombotic thrombocytopenic purpura plasma. *F. A. Siddiqui and E. C.-Y. Lian* 1330

Structural analysis of hepatitis B surface antigen by monoclonal antibodies. *E. Ben-Porath, J. R. Wands, R. A. Marciniak, M. A. Wong, L. Hornstein, R. Ryder, M. Canlas, A. Lingao, and K. J. Isselbacher* 1338

Chemotactic peptide activation of human neutrophils and HL-60 cells. Pertussis toxin reveals correlation between inositol trisphosphate generation, calcium ion transients, and cellular activation. *K.-H. Krause, W. Schlegel, C. B. Wollheim, T. Andersson, F. A. Waldvogel, and P. D. Lew* 1348

Glomerular arachidonate lipoxygenation in rat nephrotoxic serum nephritis. *E. A. Lianos, M. A. Rahman, and M. J. Dunn* 1355

Active and passive components of chloride transport in the rat proximal convoluted tubule. *R. J. Alpern, K. J. Howlin, and P. A. Preisig* 1360

Macrophage-induced glomerular fibrin deposition in experimental glomerulonephritis in the rabbit. *S. R. Holdsworth and P. G. Tipping* 1367

Nasal challenge with cold, dry air results in release of inflammatory mediators. Possible mast cell involvement. *A. G. Togias, R. M. Naclerio, D. Proud, J. E. Fish, N. F. Adkinson, Jr., A. Kagey-Sobotka, P. S. Norman, and L. M. Lichtenstein* 1375

Viral infection of vascular endothelial cells alters production of colony-stimulating activity. *S. L. Gerson, H. M. Friedman, and D. B. Cines* 1382

Definition of a possible genetic basis for susceptibility to acute myelogenous leukemia associated with the presence of a polymorphic Ia epitope. *S. Seremetis, J. Cuttner, and R. Winchester* 1391

Biochemical and clinical implications of proinsulin conversion intermediates. *B. D. Given, R. M. Cohen, S. E. Shoelson, B. H. Frank, A. H. Rubenstein, and H. S. Tager* 1398

Abnormal Factor VIII coagulant antigen in patients with renal dysfunction and in those with disseminated intravascular coagulation. *M. J. Weinstein, L. E. Chute, G. W. Schmitt, R. H. Hamburger, K. A. Bauer, J. H. Troll, P. Janson, and D. Deykin* 1406

Possible role of adenosine in the macula densa mechanism of renin release in rabbits. *S. Itoh, O. A. Carretero, and R. D. Murray* 1412

Monoclonal antibodies against complement 3 neoantigens for detection of immune complexes and complement activation. Relationship between immune complex levels, state of C3, and numbers of receptors for C3b. *M. T. Aguado, J. D. Lambris, G. C. Tsokos, R. Burger, D. Bitter-Suermann, J. D. Tamerius, F. J. Dixon, and A. N. Theofilopoulos* 1418

Defensins. Natural peptide antibiotics of human neutrophils. *T. Ganz, M. E. Selsted, D. Szklarek, S. S. L. Harwig, K. Daher, D. F. Bainton, and R. I. Lehrer* 1427

Primary structures of three human neutrophil defensins. *M. E. Selsted, S. S. L. Harwig, T. Ganz, J. W. Schilling, and R. I. Lehrer* 1436

Pathophysiology of protracted acute renal failure in man. *S. M. Moran and B. D. Myers* 1440

Expression of complement proteins C2 and factor B in transfected L cells. *D. H. Perlmutter, H. R. Colten, D. Grossberger, J. Strominger, J. G. Seidman, and D. D. Chaplin* 1449

Urine glycoprotein crystal growth inhibitors. Evidence for a molecular abnormality in calcium oxalate nephrolithiasis. *Y. Nakagawa, V. Abram, J. H. Parks, H. S.-H. Lau, J. K. Kawooya, and F. L. Coe* 1455

Efficient clearance of non-transferrin-bound iron by rat liver. Implications for hepatic iron loading in iron overload states. *P. Brissot, T. L. Wright, W.-L. Ma, and R. A. Weisiger* 1463

Alterations in adenosine triphosphate and energy charge in cultured endothelial and P388D_1 cells after oxidant injury. *R. G. Spragg, D. B. Hinshaw, P. A. Hyslop, I. U. Schraufstätter, and C. G. Cochrane* 1471

Allogeneic suppressive effects of pregnancy sera on monocytes of responding cells in human mixed lymphocyte reactions. *M. Nieda, T. Juji, and S. Imao* 1477

Central serotonergic stimulation of aldosterone secretion. *Y. Shenker, M. D. Gross, and R. J. Grekin* 1485

Substructure of human von Willebrand factor. *W. E. Fowler, L. J. Fretto, K. K. Hamilton, H. P. Erickson, and P. A. McKee* 1491

Apolipoprotein E associated with astrocytic glia of the central nervous system and with nonmyelinating glia of the peripheral nervous system. *J. K. Boyles, R. E. Pitas, E. Wilson, R. W. Mahley, and J. M. Taylor* 1501

Bacillus Calmette–Guérin-stimulated neutrophils release chemotaxins for monocytes in rabbit pleural spaces and in vitro. *V. B. Antony, S. A. Sahn, A. C. Antony, and J. E. Repine* 1514

von Willebrand's disease with spontaneous platelet aggregation induced by an abnormal plasma von Willebrand factor. *H. R. Gralnick, S. B. Williams, L. P. McKeown, M. E. Rick, P. Maisonneuve, C. Jenneau, and Y. Sultan* 1522

Effects of vasopressin antagonist on vasopressin binding, adenylate cyclase activation, and water flux. *J. K. Kim, M. A. Dillingham, S. N. Summer, S. Ishikawa, R. J. Anderson, and R. W. Schrier* 1530

Aging decreases the capacity of human skin to produce vitamin D_3. *J. MacLaughlin and M. F. Holick* 1536

A circulating myocardial depressant substance in humans with septic shock. Septic shock patients with a reduced ejection fraction have a circulating factor that depresses in vitro myocardial cell performance. *J. E. Parrillo, C. Burch, J. H. Shelhamer, M. M. Parker, C. Natanson, and W. Schuette* 1539

A distant gene deletion affects β-globin gene function in an atypical γδβ-thalassemia. *P. Curtin, M. Pirastu, Y. W. Kan, J. A. Gobert-Jones, A. D. Stephens, and H. Lehmann* 1554

Human fat cell lipolysis is primarily regulated by inhibitory modulators acting through distinct mechanisms. *H. Kather, W. Bieger, G. Michel, K. Aktories, and K. H. Jakobs* 1559

Electrophysiologic mechanisms of functional bundle branch block at onset of induced orthodromic tachycardia in the Wolff-Parkinson-White syndrome. Role of stimulation method. *M. H. Lehmann, S. Denker, R. Mahmud, P. Tchou, J. Dongas, and M. Akhtar* 1566

In vivo stimulation of sugar uptake in rat thymocytes. An extranuclear action of 3,5,3'-triiodothyronine. *J. Segal and S. H. Ingbar* 1575

Use of an X-linked human neutrophil marker to estimate timing of lyonization and size of the dividing stem cell pool. *E. S. Buescher, D. W. Alling, and J. I. Gallin* 1581

Presence of epidermal-derived thymocyte activating factor/interleukin 1 in normal human stratum corneum. *L. C. Gahring, A. Buckley, and R. A. Daynes* 1585

Interaction of cardiopulmonary and carotid baroreflex control of vascular resistance in humans. *R. G. Victor and A. L. Mark* 1592

Evidence that blood ionized calcium can regulate serum $1,25(OH)_2D_3$ independently of parathyroid hormone and phosphorus in the rat. *D. A. Bushinsky, G. S. Riera, M. J. Favus, and F. L. Coe* 1599

Sickle erythrocyte adherence to vascular endothelium. Morphologic correlates and the requirement for divalent cations and collagen-binding plasma proteins. *N. Mohandas and E. Evans* 1605

Interleukin 3 promotes the in vitro proliferation of murine pluripotent hematopoietic stem cells. *J. L. Spivak, R. R. L. Smith, and J. N. Ihle* 1613

Intrathecal triiodothyronine administration causes greater heart rate stimulation in hypothyroid rats than intravenously delivered hormone. Evidence for a central nervous system site of thyroid hormone action. *M. Goldman, M. B. Dratman, F. L. Crutchfield, A. S. Jennings, J. A. Maruniak, and R. Gibbons* 1622

Long-term effects of dietary marine ω-3 fatty acids upon plasma and cellular lipids, platelet function, and eicosanoid formation in humans. *C. von Schacky, S. Fischer, and P. C. Weber* 1626

Prevention of bedrest-induced physical deconditioning by daily dobutamine infusions. Implications for drug-induced physical conditioning. *M. J. Sullivan, P. F. Binkley, D. V. Unverferth, J.-H. Ren, H. Boudoulas, T. M. Bashore, A. J. Merola, and C. V. Leier* 1632

Activity in fetal bovine serum that stimulates erythroid colony formation in fetal mouse livers is insulinlike growth factor I. *A. Kurtz, W. Härtl, W. Jelkmann, J. Zapf, and C. Bauer* 1643

Anti-idiotypic antibodies against a human multiple organ-reactive autoantibody. Detection of idiotopes in normal individuals and patients with autoimmune diseases. *K. Essani, J. Satoh, B. S. Prabhakar, P. R. McClintock, and A. L. Notkins* 1649

Selective expression of phosphoribosylpyrophosphate synthetase superactivity in human lymphoblast lines. *M. J. Losman, D. Rimon, M. Kim, and M. A. Becker* 1657

Metabolism of pantethine in cystinosis. *C. T. Wittwer, W. A. Gahl, J. DeB. Butler, M. Zatz, and J. G. Thoene* 1665

Linkage of a membrane skeleton to integral membrane glycoproteins in human platelets. Identification of one of the glycoproteins as glycoprotein Ib. *J. E. B. Fox* 1673

Rapid Publications

Plasma levels of immunoreactive atrial natriuretic factor in healthy subjects and in patients with edema. *Y. Shenker, R. S. Sider, E. A. Ostafin, and R. J. Grekin* 1684

In vitro function of cyst epithelium from human polycystic kidney. *R. D. Perrone* 1688

Diabetes in the Bio-Breeding/Worcester rat. Induction and acceleration by spleen cell-conditioned media. *E. S. Handler, J. P. Mordes, J. Seals, S. Koevary, A. A. Like, K. Nakano, and A. A. Rossini* 1692

Erythrocyte survival in chronic renal failure. Role of secondary hyperparathyroidism. *M. Akmal, N. Telfer, A. N. Ansari, and S. G. Massry* 1695

Prospective study of cytotoxic T lymphocyte responses to influenza and antibodies to human T lymphotropic virus-III in homosexual men. Selective loss of an influenza-specific, human leukocyte antigen-restricted cytotoxic T lymphocyte response in human T lymphotropic virus-III positive individuals with symptoms of acquired immunodeficiency syndrome and in a patient with acquired immunodeficiency syndrome. *G. M. Shearer, S. Z. Salahuddin, P. D. Markham, L. J. Joseph, S. M. Payne, P. Kriebel, D. C. Bernstein, W. E. Biddison, M. G. Sarngadharan, and R. C. Gallo* 1699

Atrial natriuretic factor in human blood. *T. Yamaji, M. Ishibashi, and F. Takaku* 1705

Perspectives

Myocardial reperfusion: a double-edged sword? *E. Braunwald and R. A. Kloner* 1713

Regular Articles

Stereoselective renal clearance of pindolol in humans. *P.-H. Hsyu and K. M. Giacomini* 1720

Effects of bile and bile salts on growth and membrane lipid uptake by *Giardia lamblia*. Possible implications for pathogenesis of intestinal disease. *M. J. G. Farthing, G. T. Keusch, and M. C. Carey* 1727

Profiles of steady state levels of messenger RNAs coding for type I procollagen, elastin, and fibronectin in hamster lungs undergoing bleomycin-induced interstitial pulmonary fibrosis. *R. Raghow, S. Lurie, J. M. Seyer, and A. H. Kang* 1733

Tracer norepinephrine kinetics in coronary circulation of patients with heart failure secondary to chronic pressure and volume overload. *C. P. Rose, J. H. Burgess, and D. Cousineau* 1740

Suppression of murine neuroblastoma growth in vivo by mevinolin, a competitive inhibitor of 3-hydroxy-3-methylglutaryl-coenzyme A reductase. *W. A. Maltese, R. Defendini, R. A. Green, K. M. Sheridan, and D. K. Donley* 1748

Therapeutic concentrations of glucocorticoids suppress the antimicrobial activity of human macrophages without impairing their responsiveness to gamma interferon. *A. Schaffner* 1755

Mechanism of action of blocking immunoglobulin G for *Neisseria gonorrhoeae*. *K. A. Joiner, R. Scales, K. A. Warren, M. M. Frank, and P. A. Rice* 1765

Regulation of rat biliary cholesterol secretion by agents that alter intrahepatic cholesterol metabolism. Evidence for a distinct biliary precursor pool. *B. G. Stone, S. K. Erickson, W. Y. Craig, and A. D. Cooper* 1773

Rates of noninsulin-mediated glucose uptake are elevated in type II diabetic subjects. *A. D. Baron, O. G. Kolterman, J. Bell, L. J. Mandarino, and J. M. Olefsky* 1782

Calcium transport abnormality in uremic rat brain synaptosomes. *C. L. Fraser, P. Sarnacki, and A. I. Arieff* 1789

Disparate mechanisms for hypoxic cell injury in different nephron segments. Studies in the isolated perfused rat kidney. *M. Brezis, P. Shanley, P. Silva, K. Spokes, S. Lear, F. H. Epstein, and S. Rosen* 1796

Effect of atrial peptides on aldosterone production. *K. Atarashi, P. J. Mulrow, and R. Franco-Saenz* 1807

Bradykinin stimulation of oxidative metabolism in renal cortical tubules from rabbit. Possible role of arachidonic acid. *P. C. Brazy, D. R. Trellis, and P. E. Klotman* 1812

Metabolic fate of extracted glucose in normal human myocardium. *J. A. Wisneski, E. W. Gertz, R. A. Neese, L. D. Gruenke, D. L. Morris, and J. C. Craig* 1819

Chloride secretory mechanism induced by prostaglandin E_1 in a colonic epithelial cell line. *A. Weymer, P. Huott, W. Liu, J. A. McRoberts, and K. Dharmsathaphorn* . . . 1828

Synergistic action of cyclic adenosine monophosphate- and calcium-mediated chloride secretion in a colonic epithelial cell line. *C. A. Cartwright, J. A. McRoberts, K. G. Mandel, and K. Dharmsathaphorn* 1837

Mechanoelectrical feedback: independent role of preload and contractility in modulation of canine ventricular excitability. *B. B. Lerman, D. Burkhoff, D. T. Yue, and K. Sagawa* 1843

Inhibition of parathyroid hormone secretion and parathyroid hormone-independent diminution of tubular calcium reabsorption by WR-2721, a unique hypocalcemic agent. *S. Hirschel-Scholz, J. Caverzasio, and J.-P. Bonjour* 1851

Characterization of human platelet vasopressin receptors. *M. Thibonnier and J. M. Roberts* 1857

Spontaneous immunoglobulin A secretion and lack of mitogen-responsive B cells in systemic lupus erythematosus. *O. Saiki, Y. Saeki, and S. Kishimoto* 1865

Calcium uptake by intestinal brush border membrane vesicles. Comparison with in vivo calcium transport. *H. P. Schedl and H. D. Wilson* 1871

Vitamin K-dependent carboxylation and vitamin K metabolism in liver. Effects of warfarin. *R. Wallin and L. F. Martin* 1879

Studies on multiple thyroid cell membrane-directed antibodies in Graves' disease. *M. Zakarija, A. Garcia, and J. M. McKenzie* 1885

Altered proopiomelanocortin gene expression in adrenocorticotropin-producing nonpituitary tumors. Comparative studies with corticotropic adenomas and normal pituitaries. *Y. de Keyzer, X. Bertagna, F. Lenne, F. Girard, J.-P. Luton, and A. Kahn* 1892

A kallikrein-like serine protease in prostatic fluid cleaves the predominant seminal vesicle protein. *H. Lilja* 1899

Hepatic microcirculation in the perfused cirrhotic rat liver. *F. Varin and P.-M. Huet* 1904

Role of renal sympathetic nerves in mediating hypoperfusion of renal cortical microcirculation in experimental congestive heart failure and acute extracellular fluid volume depletion. *V. Kon, A. Yared, and I. Ichikawa* 1913

Inner-ring deiodination of 3,5,3′-triiodothyronine in the in situ perfused guinea pig placenta. *M. I. Castro, L. E. Braverman, S. Alex, C.-F. Wu, and C. H. Emerson* 1921

Membrane markers, target cell specificity, and sensitivity to biological response modifiers distinguish human natural cytotoxic from human natural killer cells. *M. Rola-Pleszczynski, H. Lieu, A. K. Sullivan, and M. Girard* 1927

Activation of the human neutrophil nicotinamide adenine dinucleotide phosphate (NADPH)-oxidase by protein kinase C. *J. A. Cox, A. Y. Jeng, N. A. Sharkey, P. M. Blumberg, and A. I. Tauber* 1932

Distribution of renin activity and angiotensinogen in rat brain. Effects of dietary sodium chloride intake on brain renin. *C. P. Genain, G. R. Van Loon, and T. A. Kotchen* 1939

3-Hydroxy-3-methylglutaryl coenzyme A reductase in anencephalic and normal human fetal liver. *B. R. Carr, W. E. Rainey, and J. I. Mason* 1946

Independent modulation of von Willebrand factor and fibrinogen binding to the platelet membrane glycoprotein IIb/IIIa complex as demonstrated by monoclonal antibody. *V. Trapani Lombardo, E. Hodson, J. R. Roberts, T. J. Kunicki, T. S. Zimmerman, and Z. M. Ruggeri* 1950

Production of and in vitro response to interleukin 2 in the acquired immunodeficiency syndrome. *H. W. Murray, K. Welte, J. L. Jacobs, B. Y. Rubin, R. Mertelsmann, and R. B. Roberts* 1959

Polymorphism of the complement receptor for C3bi. *G. R. Russ, A. P. Haddad, B. D. Tait, and A. J. F. d'Apice* 1965

Effect of hydrogen peroxide exposure on normal human erythrocyte deformability, morphology, surface characteristics, and spectrin-hemoglobin cross-linking. *L. M. Snyder, N. L. Fortier, J. Trainor, J. Jacobs, L. Leb, B. Lubin, D. Chiu, S. Shohet, and N. Mohandas* 1971

A monoclonal antibody against basal cells of human epidermis. Potential use in the diagnosis of cervical neoplasia. *V. B. Morhenn, A. B. Schreiber, O. Soriero, W. McMillan, and A. C. Allison* 1978

Isolation and characterization of glycosaminoglycans in human plasma. *I. Staprans and J. M. Felts* 1984

Pathogenesis of heterogeneity in human multinodular goiter. A study on growth and function of thyroid tissue transplanted onto nude mice. *H. J. Peter, H. Gerber, H. Studer, and S. Smeds* 1992

Interleukin 1 acts on cultured human vascular endothelium to increase the adhesion of polymorphonuclear leukocytes, monocytes, and related leukocyte cell lines. *M. P. Bevilacqua, J. S. Pober, M. E. Wheeler, R. S. Cotran, and M. A. Gimbrone, Jr.* 2003

Defective binding and function of 1,25-dihydroxyvitamin D_3 receptors in peripheral mononuclear cells of patients with end-organ resistance to 1,25-dihydroxyvitamin D. *R. Koren, A. Ravid, U. A. Liberman, Z. Hochberg, Y. Weisman, and A. Novogrodsky* 2012

Rapid Publications

Human transforming growth factor-alpha stimulates bone resorption in vitro. *P. H. Stern, N. S. Krieger, R. A. Nissenson, R. D. Williams, M. E. Winkler, R. Derynck, and G. J. Strewler* 2016

Immunoglobulin G is a platelet alpha granule-secreted protein. *J. N. George, S. Saucerman, S. P. Levine, L. K. Knieriem, and D. F. Bainton* 2020

Immunoreactive corticotropin-releasing factor in human plasma. *T. Suda, N. Tomori, F. Yajima, T. Sumitomo, Y. Nakagami, T. Ushiyama, H. Demura, and K. Shizume* 2026

The transmembrane pH gradient drives uphill folate transport in rabbit jejunum. Direct evidence for folate/hydroxyl exchange in brush border membrane vesicles. *C. M. Schron, C. Washington, Jr., and B. L. Blitzer* . . . 2030

The Journal of Clinical Investigation
December 1985, Volume 76, Number 6

Perspectives

Biologically active atrial peptides. *B. J. Ballermann and B. M. Brenner* 2041

Regular Articles

Physiologic regulation of atrial natriuretic peptide receptors in rat renal glomeruli. *B. J. Ballermann, R. L. Hoover, M. J. Karnovsky, and B. M. Brenner* 2049

Cobalamin malabsorption in three siblings due to an abnormal intrinsic factor that is markedly susceptible to acid and proteolysis. *Y. Yang, R. Ducos, A. J. Rosenberg, P. G. Catrou, J. S. Levine, E. R. Podell, and R. H. Allen* 2057

Absence of gamma interferon and interleukin 2 production during active visceral leishmaniasis. *E. M. Carvalho, R. Badaró, S. G. Reed, T. C. Jones, and W. D. Johnson, Jr.* 2066

Recognition of human insulin in vitro by T cells from subjects treated with animal insulins. *L. J. Nell, V. J. Virta, and J. W. Thomas* 2070

Human histocompatibility leukocyte antigen (HLA) haplotype frequencies estimated from the data on HLA class I, II, and III antigens in 111 Japanese narcoleptics. *K. Matsuki, T. Juji, K. Tokunaga, T. Naohara, M. Satake, and Y. Honda* 2078

Self-perpetuating mechanisms of immunoglobulin G aggregation in rheumatoid inflammation. *J. Lunec, D. R. Blake, S. J. McCleary, S. Brailsford, and P. A. Bacon* 2084

Glucose transport and metabolism in adipocytes from newly diagnosed untreated insulin-dependent diabetics. Severely impaired basal and postinsulin binding activities. *E. Hjøllund, O. Pedersen, B. Richelsen, H. Beck-Nielsen, and N. S. Sørensen* 2091

Ischemia induces partial loss of surface membrane polarity and accumulation of putative calcium ionophores. *B. A. Molitoris, P. D. Wilson, R. W. Schrier, and F. R. Simon* 2097

O^6Alkylguanine-DNA alkyltransferase activity in human myeloid cells. *S. L. Gerson, K. Miller, and N. A. Berger* 2106

Isolation, characterization, and distribution of an unusual pancreatic human secretory protein. *J. Gross, R. I. Carlson, A. W. Brauer, M. N. Margolies, A. L. Warshaw, and J. R. Wands* 2115

Formation of soluble immune complexes by complement in sera of patients with various hypocomplementemic states. Difference between inhibition of immune precipitation and solubilization. *J. A. Schifferli, G. Steiger, G. Hauptmann, P. J. Spaeth, and A. G. Sjöholm* 2127

Monoclonal antibodies to T-2 toxin. In vitro neutralization of protein synthesis inhibition and protection of rats against lethal toxemia. *G. Feuerstein, J. A. Powell, A. T. Knower, and K. W. Hunter, Jr.* 2134

Analysis of helper activity on pokeweed mitogen- and interleukin 2-driven immunoglobulin synthesis by neoplastic $T4^+$ cells. *F. Miedema, J. W. van Oostveen, F. G. Terpstra, A. W. L. van den Wall Bake, R. Willemze, E. A. J. Rauws, R. Bieger, M. B. van't Veer, D. Catovsky, and C. J. M. Melief* 2139

Biosynthesis of the transferrin receptor in rabbit reticulocytes. *T. M. Cox, M. W. O'Donnell, P. Aisen, and I. M. London* 2144

A relationship between ultrasonic integrated backscatter and myocardial contractile function. *S. A. Wickline, L. J. Thomas III, J. G. Miller, B. E. Sobel, and J. E. Perez* 2151

An intragenic deletion of the Factor IX gene in a family with hemophilia B. *S.-H. Chen, S. Yoshitake, P. F. Chance, G. L. Bray, A. R. Thompson, C. R. Scott, and K. Kurachi* 2161

Dietary intake of sodium chloride in the rat influences [^{3}H]nitrendipine binding to adrenal glomerulosa cell membranes but does not alter binding to vascular smooth muscle membranes. *R. J. Schiebinger and K. Kontrimus* 2165

Biochemical marker in familial amyloidotic polyneuropathy, Portuguese type. Family studies on the transthyretin (prealbumin)-methionine-30 variant. *M. J. M. Saraiva, P. P. Costa, and D. S. Goodman* 2171

Thrombomodulin is present in human plasma and urine. *H. Ishii and P. W. Majerus* 2178

DNA binding to human leukocytes. Evidence for a receptor-mediated association, internalization, and degradation of DNA. *R. M. Bennett, G. T. Gabor, and M. M. Merritt* 2182

Lysosomal enzyme phosphorylation in human fibroblasts. Kinetic parameters offer a biochemical rationale for two distinct defects in the uridine diphospho-*N*-acetylglucosamine:lysosomal enzyme precursor *N*-acetylglucosamine-1-phosphotransferase. *L. Lang, T. Takahashi, J. Tang, and S. Kornfeld* 2191

Demonstration and partial characterization of the interferon-gamma receptor on human mononuclear phagocytes. *A. Celada, R. Allen, I. Esparza, P. W. Gray, and R. D. Schreiber* 2196

In vitro prostacyclin production by ovine uterine and systemic arteries. Effects of angiotensin II. *R. R. Magness, K. Osei-Boaten, M. D. Mitchell, and C. R. Rosenfeld* 2206

Renal cortex taurine content regulates renal adaptive response to altered dietary intake of sulfur amino acids. *R. W. Chesney, N. Gusowski, and S. Dabbagh* 2213

Effect of metabolic clearance rate and hepatic extraction of insulin on hepatic and peripheral contributions to hypoglycemia. *Z. Chap, T. Ishida, J. Chou, C. J. Hartley, R. M. Lewis, M. Entman, and J. B. Field* 2222

Thrombin stimulates the adherence of neutrophils to human endothelial cells in vitro. *G. A. Zimmerman, T. M. McIntyre, and S. M. Prescott* 2235

Nasal challenge with ragweed pollen in hay fever patients. Effect of immunotherapy. *P. S. Creticos, N. F. Adkinson, Jr., A. Kagey-Sobotka, D. Proud, H. L. Meier, R. M. Naclerio, L. M. Lichtenstein, and P. S. Norman* 2247

Estimation of bone turnover evaluated by ^{47}Ca-kinetics. Efficiency of serum bone gamma-carboxyglutamic acid-containing protein, serum alkaline phosphatase, and urinary hydroxyproline excretion. *P. Charles, J. W. Poser, L. Mosekilde, and F. T. Jensen* 2254

Loss of high affinity cardiac beta adrenergic receptors in dogs with heart failure. *D. E. Vatner, S. F. Vatner, A. M. Fujii, and C. J. Homcy* 2259

Relative contribution of aortic and carotid baroreflexes to heart rate control in man during steady state and dynamic increases in arterial pressure. *D. W. Ferguson, F. M. Abboud, and A. L. Mark* 2265

Erythrocyte echinocytosis in liver disease. Role of abnormal plasma high density lipoproteins. *J. S. Owen, D. J. C. Brown, D. S. Harry, N. McIntyre, G. H. Beaven, H. Isenberg, and W. B. Gratzer* 2275

Effects of thromboxane synthase inhibition on vascular responsiveness in the in vivo rat mesentery. *E. K. Jackson* 2286

Potential of brown adipose tissue type II thyroxine 5'-deiodinase as a local and systemic source of triiodothyronine in rats. *J. E. Silva and P. R. Larsen* 2296

Insulin-mediated reduction of whole body protein breakdown. Dose-response effects on leucine metabolism in postabsorptive men. *N. K. Fukagawa, K. L. Minaker, J. W. Rowe, M. N. Goodman, D. E. Matthews, D. M. Bier, and V. R. Young* 2306

1,25-dihydroxyvitamin D increases calmodulin binding to specific proteins in the chick duodenal brush border membrane. *D. D. Bikle and S. Munson* 2312

Human platelet Fc receptor for immunoglobulin G. Identification as a 40,000-molecular-weight membrane protein shared by monocytes. *S. I. Rosenfeld, R. J. Looney, J. P. Leddy, D. C. Phipps, G. N. Abraham, and C. L. Anderson* 2317

Stimulation of granulation tissue formation by platelet-derived growth factor in normal and diabetic rats. *G. R. Grotendorst, G. R. Martin, D. Pencev, J. Sodek, and A. K. Harvey* 2323

A unique elastase in human blood platelets. *H. L. James, Y. T. Wachtfogel, P. L. James, M. Zimmerman, R. W. Colman, and A. B. Cohen* 2330

Network interactions in *Schistosoma japonicum* infection. Identification and characterization of a serologically distinct immunoregulatory auto-antiidiotypic antibody population. *G. R. Olds and T. F. Kresina* 2338

Structural requirements for parathyroid hormone action in mature bone. Effects on release of cyclic adenosine monophosphate and bone gamma-carboxyglutamic acid-containing protein from perfused rat hindquarters. *M. S. Calvo, M. J. Fryer, K. J. Laakso, R. A. Nissenson, P. A. Price, T. M. Murray, and H. Heath III* 2348

Insulin receptor biosynthesis in cultured lymphocytes from insulin-resistant patients. *J. A. Hedo, V. Y. Moncada, and S. I. Taylor* 2355

Oral administration of human serum immunoglobulin in immunodeficient patients with viral gastroenteritis. A pharmacokinetic and functional analysis. *G. A. Losonsky, J. P. Johnson, J. A. Winkelstein, and R. H. Yolken* 2362

Interaction of human monocytes, macrophages, and polymorphonuclear leukocytes with zymosan in vitro. Role of type 3 complement receptors and macrophage-derived complement. *R. A. B. Ezekowitz, R. B. Sim, G. G. MacPherson, and S. Gordon* 2368

Intracellular respiratory dysfunction and cell injury in short-term anoxia of rabbit renal proximal tubules. *T. Takano, S. P. Soltoff, S. Murdaugh, and L. J. Mandel* 2377

Deficiency of the adhesive protein complex lymphocyte function antigen 1, complement receptor type 3, glycoprotein p150,95 in a girl with recurrent bacterial infections. Effects on phagocytic cells and lymphocyte functions. *A. Fischer, R. Seger, A. Durandy, B. Grospierre, J. L. Virelizier, F. Le Deist, C. Griscelli, E. Fischer, M. Kazatchkine, M.-C. Bohler, B. Descamps-Latscha, P. H. Trung, T. A. Springer, D. Olive, and C. Mawas* 2385

In vivo and in vitro studies on formation of bile acids in patients with Zellweger syndrome. Evidence that peroxisomes are of importance in the normal biosynthesis of both cholic and chenodeoxycholic acid. *B. F. Kase, J. I. Pedersen, B. Strandvik, and I. Björkhem* 2393

Irreversible bone loss in osteomalacia. Comparison of radial photon absorptiometry with iliac bone histomorphometry during treatment. *A. M. Parfitt, D. S. Rao, J. Stanciu, A. R. Villanueva, M. Kleerekoper, and B. Frame* 2403

Rapid Publications

Atriopeptin III. A potent natriuretic, diuretic, and hypotensive agent in rats with chronic renal failure. *B. R. Cole, M. A. Kuhnline, and P. Needleman* 2413

Z-Nucleotide accumulation in erythrocytes from Lesch-Nyhan patients. *Y. Sidi and B. S. Mitchell* 2416

Serum vitamin D-binding protein is a third member of the albumin and alpha fetoprotein gene family. *N. E. Cooke and E. V. David* 2420

Beta-2 microglobulin is an amyloidogenic protein in man. *P. D. Gorevic, T. T. Casey, W. J. Stone, C. R. DiRaimondo, F. C. Prelli, and B. Frangione* 2425

Stimulation of porcine jejunal ion secretion in vivo by protein kinase-C activators. *C. S. Weikel, J. J. Sando, and R. L. Guerrant* 2430

Sn-protoporphyrin suppresses chemically induced experimental hepatic porphyria. Potential clinical implications. *R. A. Galbraith, G. S. Drummond, and A. Kappas* 2436

Tissue factor induction in human monocytes. Two distinct mechanisms displayed by different alloantigen-responsive T cell clones. *S. A. Gregory and T. S. Edgington* 2440

Metabolism and effects on platelet function of the purified eicosapentaenoic and docosahexaenoic acids in humans. *C. von Schacky and P. C. Weber* 2446
